INTRODUCING

Value Based Care

at ArchWell Health™

Have you ever wondered why many doctors spend so little time with their patients? Healthcare companies often charge a fee for each service. That puts pressure on doctors to see as many patients as possible. With value-based care at ArchWell Health, your clients are more than just patients—they're also valued members. And because their primary care provider has fewer total patients to see, they'll enjoy:

- ✓ Longer appointments with plenty of time to discuss concerns with a doctor
- ✓ Primary care visits as often as they need them
- ✓ Personalized care, focused on their overall wellness

Referring your clients is easy!
